Request for Data Related to California's Nuclear Power Plants

- Data request included 50 requests for San Onofre Nuclear Generating Station (SONGS) in three sections
 - Progress in completing AB 1632 Report/2008 IEPR Recommendations
 - Progress in completing 2011 IEPR Recommendations
 - Other issues
- Activities associated with seismic studies and used fuel storage were addressed in the briefing on SONGS retirement
- With the retirement of SONGS the responses to most of the data requests are no longer relevant.
- Responses that have some relevance at this time may also change as SCE proceeds with plant retirement
 - Station Blackout
 - Evacuation Planning and Roadway Assessments
 - Environmental Impacts of groundwater at Unit 1
